

PUBLIC SEATING IN STAINLESS STEEL

Remkor Technologies has developed and manufactured public seating in stainless steel for high traffic areas such as public waiting rooms, recreational outdoors and airport transit areas. The seating has been designed to be durable and affordable without compromising comfort and appearance. Seating has been designed in two different styles namely the Premium range and Standard range. Both ranges can be manipulated to suit customer's requirements.

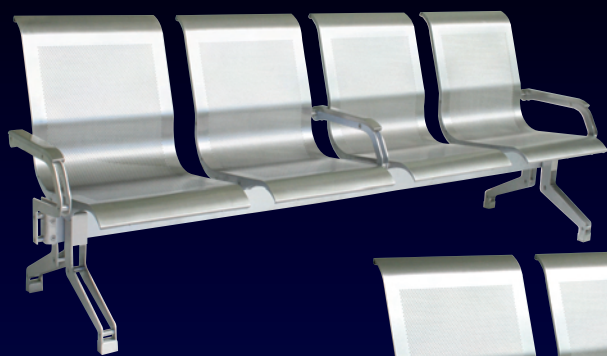

Seating is Available in 2, 3 and 4 seat formats.

Options:

- With or without armrest
- Perforated seating (Customized corporate logo or name)
- Beam assembly colour coded to suit customer requirements.
