Remkor Technologies house a state-of the-art steel fabrication facility in Industrial Johannesburg - South Africa. As an ISO 9001 certified company, Remkor proudly assures their customer of the highest quality standard throughout the manufacturing process. Remkor have recently launched a range of IP55 and IP65 accredited Enclosures, available in Mild or Stainless Steel, to suit the markets every need.

Remkor Technologies specialize in the fabrication of high quality, durable industrial enclosures for the Electrical and Electronic markets ranging from standard wall mounted units to specialized floor standing units. All enclosures are available with optional extras such as an inner door, canopy, gland plate or a glass door. The in-house design department offers customized enclosures to suit every customer-specific application.

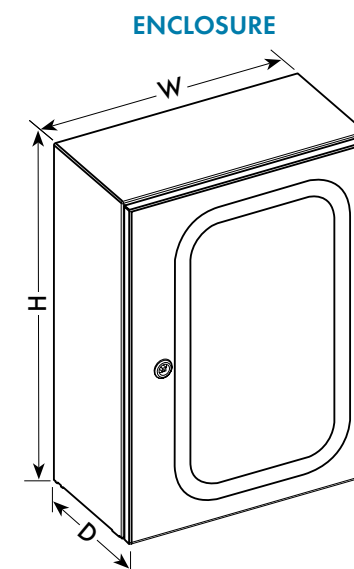

No matter the requirement – from CAD design to final shipping - we pride ourselves in our ability to offer an easy and affordable solution to our customers.
